Research interests: general relativity, tests of modified gravity theories, and science with gravitational waves.

Education

California Institute of Technology

PHD CANDIDATE IN PHYSICS

Pasadena, California

Aug. 2020 - Present

University of Cambridge

PART III IN APPLIED MATHEMATICS AND THEORETICAL PHYSICS

Cambridge, UK

Oct. 2019 - May 2020

University of Virginia

B.S. IN PHYSICS AND MATHEMATICS

Charlottesville, Virginia

Aug. 2016 - May 2019

Experience

Graduate Student Researcher

CALIFORNIA INSTITUTE OF TECHNOLOGY

Pasadena, California

Oct. 2020 - Present

- Cosmology with gravitational waves, space based gravitational wave detectors, black hole perturbation theory, and testing general relativity with Prof. Yanbei Chen
- Studied science that can be achieved with decihertz gravitational wave detectors – improved cosmological measurements, hierarchical triples, and repeated hierarchical triple lensing.
- With a model motivated by a quantum gravity, examined how random metric fluctuations near a black hole can cause deviations from general relativity and be optimally detected.
- Mentored three undergraduates on research projects which are leading to publications: Andrew Laeuger, Agla Pórarinsdóttir, and Chris Jungkind.

Undergraduate Researcher

UNIVERSITY OF VIRGINIA

Charlottesville, Virginia

Oct. 2017 - Aug. 2019

- Studied how binary pulsars and gravitational waves measurements can constrain deviations from general relativity with Prof. Kent Yagi.
- Highlighted the potential of testing general relativity using systems like a black hole-pulsar and a hierarchical triple pulsar.

Summer Undergraduate Research Fellow

LIGO LIVINGSTON

Livingston, Louisiana

Jun. 2017 - Aug. 2017

- Analyzed angular controls systems noise at LIGO with Dr. Marie Kasprzack, Dr. Adam Mullavey, and Dr. Arnaud Pele.

Honors & Awards

- 2020 **NSF Graduate Research Fellowship**
Graduate school funding
- 2019 **Stephen T. Thornton Outstanding Undergraduate Physics Research Award**
Annual prize for the best physics undergraduate research project at UVA
- 2019 **Phi Beta Kappa**
Collegiate honor society
- 2019 **Churchill Scholarship**
Scholarship for a master's degree at University of Cambridge
- 2018 **Astronaut Scholarship**
National tuition scholarship for scientific research achievement
- 2018 **Mitchell Summer Research Scholarship,**
Summer research stipend from UVA Physics Department
- 2018 **College Science Scholar Summer Research Stipend**
Summer research stipend through College Science Scholar Program
- 2017 **Shire Award for Collegiate Education Scholarship**
Selective national tuition scholarship for academic performance
